PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Software Engineer specializing in Embedded C programming, with a strong foundation in computer science and software development principles. Skilled in designing, coding, and testing efficient embedded solutions, and familiar with microcontroller architecture, debugging tools, and real-time operating systems. Adept at working in agile development environments and committed to delivering reliable, optimized, and scalable software.

EDUCATION

COER University

Bachelor of Computer Applications (BCA) : CGPA- 9.28

Roorkee Uttarakhand, India

July 2023 – June 2026

SKILLS SUMMARY

- **Languages:** C,Java, JavaScript, Python, HTML, CSS, Tailwind CSS
- **Web-Technologies:** React.js, Tailwind CSS,Bootstrap,Express.js, RESTful APIs,Redis
- **DevOps:** Docker
- **Frameworks & Libraries:** React.js, Express.js, Node.js ,Matplotlib,Seaborn,Panda
- **Databases:** MySQL, Mongodb
- **Tools:** Git/Github

WORK EXPERIENCE

Web Development Intern – COER University

May 2025 – June 2025

- Completed a full-time (9 AM – 5 PM) on-site internship program in Full Stack Web Development.
- Gained knowledge of frontend technologies (HTML, CSS, JavaScript, React) for building dynamic, responsive interfaces, and backend development using Node.js, Express, and databases (MongoDB/MySQL) for data storage.
- Practiced building responsive web pages and learned about web development best practices.

Software Developer Intern - HashedBit Innovations PVT LTD

May 2025 – July 2025

- Contributing to live projects, gaining hands-on experience in real-world development.
- Attending daily meetings to discuss progress, collaborate with the team, and complete assigned tasks.
- Enhancing development skills and gaining practical experience working on production-level applications.

PROJECTS

StyleLoop : ([GITHUB](#)) | [Live](#)

- Built a full-stack E-commerce site with **React.js**, **Express.js**, **MongoDB**, and **Tailwind CSS**.
- Designed responsive UI with **Tailwind**, ensuring cross-device compatibility.
- Added **product filtering** by category, price, fabric, and rating, size.
- Created **REST APIs** in Express.js for products.

Virtual assistant: ([GITHUB](#))

- Built a **voice-enabled virtual assistant** using **HTML**, **CSS**, and **JavaScript** to handle user tasks via speech interaction.
- Implemented features like **answering questions**, **setting reminders**, **controlling devices**, and **playing music**.
- Enhanced user experience with **speech recognition and synthesis** for smooth voice-based interaction.
- Focused on improving **productivity and convenience** through an intuitive and responsive UI.

CERTIFICATES

- Poster presentations in ML technology – IIT Roorkee
- AI-Machine Learning Certificate- Reliance Foundation
- 12 Hours-Hackathon 5.0 – COER University
- Hackathon 4.0 – COER University

April 2025

May 2025
